

# FM41

## Congratulations!

On your purchase of the FM41 fitness microphone for one. A great mic for the single instructor - designed for light exercise instruction up to 7 classes per week. The connectors are wired for universal connection - meaning that a T4 connector will work with any major brand that uses a T4 connector. The same holds true for T3 connectors. Cables are replaceable when they are damaged or a different connector is required. The cables are easily removed by unscrewing the cable at the frame junction and attaching the replacement. Additional Cables and Windscreens are available from your dealer.

### Using your FM41

**Attach the Universal Removable Cable - Twist on, but don't over tighten, Put the headset on, Match the transmitter connector to the plug, and Plug it in – Simple!**

**Please Note** - Because the FM41 is a waterproofed professional grade microphone designed for the clear clean sound, you might experience some **feedback** (high pitch squeal) when changing over from another brand of microphone. There is nothing wrong with your microphone – your system needs adjusting to optimize the benefits of your FM41....

**Feedback** can be managed by

- **Turning down the Mic Volume on the mixer**
- **Turning down the Treble (highs) on the Mic channel on the mixer**
- **Turning down the Mic Gain (MT or Mic Vol) on the body pack transmitter** (usually located in the battery compartment).

## FM41 Warranty Information

*The FM41 is covered for a single instructor for 7 classes per week for one year from the date of purchase for manufacture defects. This mic was designed/built for an individual instructor only, for light exercise use, teaching up to 7 classes per week - it was not built to the Aeromic/Cyclemic/Emic standards for many instructors and heavier sweat and class loads.*

Physical defects that are a result of improper adjustment such as a damaged or broken frame, "cuts or creases" in the boom arm or wire, or clogged or damaged capsule either from physical abuse, careless handling, or by cleaning with solvents, sanitizers, alcohol, canned air, or wipes of any kind are not covered under any warranty. Due to the physical nature of fitness classes windscreens and wire kits are considered consumables and are not covered under warranty. All warranty claims must be accompanied by a copy of the original sales receipt with the product noted at the time of sale.

If at sometime the FM41 needs servicing, call or email for a Return Authorization number and paperwork needed for service to avoid possible processing delays.
